

# Priory Woods Curriculum Overview

The centre of our curriculum encompasses the 4 strands of the EHCP framework and is at the heart of what we want for our pupils.

Overview of the essential skills needed in order to achieve our core aims.

These are our curriculum areas - each area has its own rationale and is strongly linked to assessment.

This thread runs through all areas and provides the breadth, balance and wealth of opportunities we provide through cross curricular theme. Personal values, awe and wonder, inspiration and creative thinking are nurtured and grow. This along with our sense of community and belonging are demonstrated in the final tier.
